

▶ Polycom® VoiceStation® 300 Analog Conference Phone

Crystal-clear conferencing for smaller rooms and desktops

The Polycom VoiceStation 300 is a small conference phone ideally suited for desktops, offices, and other small rooms. With a microphone range of up to seven feet, the VoiceStation 300 is ideal for small conferences with three to four participants. Plus its compact industrial design fits well on a desk or small table, making it a great solution for offices. The VoiceStation 300 provides Polycom's legendary voice quality at an affordable price.

Polycom Acoustic Clarity™ technology delivers exceptional performance and voice quality, making your conference calls clearer and more productive. Industry-leading full duplex technology provides natural, simultaneous two-way conversation without clipping or drop-outs that are common in traditional speakerphones. Users can speak in a normal voice and be heard clearly up to 7 feet away – making every call a more productive call. Dynamic Noise Reduction (DNR) actively removes background noise such as projectors and ventilation systems, while 360-degree microphone coverage with intelligent mixing highlights the person speaking, not the distracting ambient sounds, for crystal clear conferencing. It also features technology that resists interference from mobile phones and other wireless devices, delivering clear communications with no distractions.

Convenient controls for volume, mutes, redial, flash and hold are located on an intuitive, easy-to-use keypad. A handset phone can be plugged in for private calls, or simply switch back to the VoiceStation 300 for hands-free conversations.

Benefits

- ▶ **More productive calls** – Polycom's patented Acoustic Clarity Technology allows simultaneous, natural, free-flowing conversation
- ▶ **360-degree room coverage** – A powerful, digitally-tuned custom speaker and three sensitive microphones provide uniform coverage from up to 7 feet away
- ▶ **Hands-free calls** – A great hands-free conferencing solution for home offices and small businesses
- ▶ **Resists interference from mobile phones** – Clearer calls with no distracting noise from wireless devices
- ▶ **Easy to use and install** – Connects into any analog phone jack
- ▶ **Secondary phone options** – Plug in a fax machine or computer modem, or plug in a handset for private calls
